

North Asia Open Grid Cable Tray

Overview

Ideal for IT rooms, ceiling cabling, and lighting systems, this wire mesh tray allows maximum airflow and quick cable placement. Lightweight and cost-effective, it's perfect for light-duty data and control wiring in commercial interiors. High Protection Rating: Completely isolates dust, moisture, oil contamination, and external mechanical damage, providing the most comprehensive cable protection. Strong Anti-Interference Capability: The enclosed structure shields against electromagnetic interference (EMI), making it suitable for. The Grid Cable Tray System is a high-performance cable support solution engineered to deliver superior strength, optimized airflow, and simplified cable routing for modern industrial and commercial installations. This feature is particularly valuable in high-density cable installations where thermal management is critical for system reliability and. Electrolytic Polishing - for stainless steel use Bends, Risers, T Junctions, Crosses & Reducers can be made from wire mesh cable tray straight sections flexibly in projects. Trays shall be supported at a maximum span of 2. If you are interested in cooperation, please contact us.
