

Opgw power fiber optic cable clamp

Overview

The complete hardware range for ADSS and OPGW fiber optic cable, anchoring and tension clamps, suspension sets, vibration dampers, download hardware, and splice closures, matched to your exact cable diameter and span data. The hardware provided is designed to meet both the construction and performance. ZION Communication focuses on optical fiber cable hardware products, offering FTTH and ADSS series solutions—including stainless steel, nylon, and composite flat cable drop clamps, tension clamps, and suspension clamps. One factory, one matched set, no compatibility surprises at the tower. Which. PLP transmission, distribution, substation, fiber optic, solar, and EV solutions protect and connect overhead electric power lines and communications networks. The product is an aluminum extruded parallel groove clamp. The FIBERLIGN Cushion Clamp uses a combination of structural reinforcing rods (SRR) and elastomer inserts at the ends of the clamp halves to protect the OPGW from damage at support points. Fastening hardware is galvanized steel.
