

Outdoor Vertical Cable Tray Prices

Summary of Content

Outdoor vertical cable trays typically range from \$50 to \$300 per meter depending on material, size, and corrosion resistance.

Price Overview

The cost of outdoor vertical cable trays varies significantly based on material, design, and protective coatings. Common price ranges include:

- Galvanized Steel Trays: \$50-\$150 per meter. Hot-dip galvanization or zinc coating improves corrosion resistance for outdoor environments .
- Stainless Steel Trays (304 or 316): \$120-\$300 per meter. These offer superior durability and resistance to chemicals, moisture, and saltwater, making them ideal for coastal or high-humidity areas .
- Aluminum Trays: \$80-\$200 per meter. Lightweight and naturally corrosion-resistant, suitable for outdoor installations where weight is a concern .
- Fiberglass or Glass-Reinforced Polymer (GRP) Trays: \$100-\$250 per meter. Non-conductive, highly resistant to chemicals and moisture, ideal for high-voltage or hazardous outdoor environments .
- PVC Trays: \$40-\$120 per meter. Resistant to impact, weather, and fire, but generally used for lighter loads and less demanding outdoor conditions .

Factors Affecting Price

- Load Capacity: Heavier-duty trays designed to support large power cables cost more.
