

Pakistan Cable Management Rack Specifications

Summary of Content

Cable management racks in Pakistan are designed to organize, protect, and optimize network cabling, with options ranging from under-desk trays to rack-mounted bays supporting CAT6 standards.

Types of Cable Management Racks

1. Rack-Mounted Cable Managers: These are installed within server or network racks to organize patch cables and power cords. They often feature ventilated storage, smooth front distribution, and rear access for easy maintenance. For example, the Neat Patch NP2K624 provides 485 ventilated cubic inches of storage and supports 24 CAT6 patch cables, ensuring bend-radius compliance and optimal bandwidth . 2. Under-Desk Cable Trays: Ideal for office setups, these trays are mounted beneath desks to hide and organize cables, creating a clutter-free workspace. They are compact, durable, and easy to install, suitable for desks of various sizes . 3. Cable Management Trays and Organizers: Available from retailers like TechCart.pk, these include rack cable organizers, trays, and management solutions for both small and large-scale networks, with fast nationwide delivery .

Key Specifications and Features

- Compatibility: Designed to fit standard server racks (12U, 15U, 27U, 42U) and network cabinets .
- Material: Typically made from metal or high-quality plastic for durability.
