

Pipe and Cable Tray Price List

Summary of Content

Cable tray prices vary widely depending on material, size, and region, ranging from \$2 to \$50 per meter, while installation and accessories can significantly affect total costs.

Cable Tray Pricing Overview

Cable trays are used to support and organize electrical, communication, and data cables. Prices depend on material type, tray dimensions, surface finish, and installation complexity. Common materials include galvanized steel, aluminum, stainless steel, and plastic (FRP or PVC). For 2026, typical price ranges per meter are:

- Galvanized steel: \$2 – \$10 (basic) up to \$35 for heavy-duty or coated trays
- Aluminum: \$8 – \$20, lightweight and corrosion-resistant
- Stainless steel: \$15 – \$40, suitable for high-heat or chemical environments
- Plastic (FRP/PVC): \$8 – \$25, budget-friendly but limited load capacity

Tray types also influence cost: ladder trays are more expensive but support heavy cables, wire mesh trays are cheaper and ideal for lightweight cabling, and solid-bottom trays provide full protection at a higher price .

Regional Price Examples

- Philippines: Cable trays range from ₱1,310 to ₱5,307 depending on size and material, with electro-galvanized steel being common for industrial and commercial use .
