

Portable Waterproof and Moisture-proof Distribution Box

Summary of Content

Portable waterproof distribution boxes provide reliable protection against water, dust, and environmental exposure, ensuring safe and durable electrical distribution in outdoor and industrial settings.

Key Features

Waterproof and Moisture-Proof Protection: These distribution boxes are designed with IP65–IP68 ratings, ensuring protection against rain, dust, and moisture ingress, making them suitable for harsh outdoor environments and industrial applications (SinoBreaker, ZCEBOX, Nante) . **Durable Materials:** Commonly made from ABS or polycarbonate plastics, these enclosures are corrosion-resistant, UV-stabilized, and impact-resistant, providing long-term durability and mechanical strength for field installations (SELHOT, ETEK) . **Portability:** Lightweight construction and compact designs allow for easy transport and deployment in temporary setups, construction sites, or mobile power distribution needs (Nante) . **Customization Options:** Many manufacturers offer custom sizing, knockouts, DIN rail configurations, and multi-layer layouts to accommodate specific wiring requirements, terminal arrangements, or photovoltaic and solar system applications (SinoBreaker, SELHOT, ETEK) . **Safety and Compliance:** These boxes meet international standards such as IEC 60529, UL 94, CE, and ROHS, ensuring reliable electrical protection, fire resistance, and safe operation in demanding conditions (ZCEBOX, ETEK, SELHOT) .
