

# Pre-reserved terminal head for distribution box

## Overview

Pre-assembled complete sets for main and sub-distribution panels with 3-wire installation terminals, main line branch terminals (HLAK) and surge protection on DIN rail or separately for direct mounting within the main distribution panel or sub-distribution panel. TE Connectivity's (TE) hard-wired power distribution boxes and systems help provide the next evolution of reliable and optimized power network structure. Our products are certified for installation technologies all over the. Our flexible distribution boxes enable reliable, decentralised signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required. High-quality materials and robust product designs ensure a reliable connection, signal transmission and power. Here, decentralized electrical installation has proven its worth: Our distribution boxes offer the necessary installation space for pluggable installation - for the most diverse applications in the most diverse areas of use: Our distribution box can be used wherever high demands and harsh. The terminal boxes Atex Terbox terminals are pre-assembled in stock, delivery time of 24 hours. Terminal rails are almost always.
