

Price of Dutch Stainless Steel Cable Trays

Summary of Content

Stainless steel cable trays in the Netherlands typically range from €20 to €100 per meter, depending on size, type, and supplier.

Overview

Stainless steel cable trays are widely used for organizing and supporting electrical cables in industrial, commercial, and residential settings. They are valued for their durability, corrosion resistance, and load-bearing capacity. In the Netherlands, suppliers such as Staalbouw Dijkstra and Jeetmull Jaichandlall (P) Ltd. offer a variety of stainless steel cable trays in different sizes, shapes, and configurations to suit various applications ().

Price Factors

The cost of stainless steel cable trays depends on several factors:

- **Material Grade:** Higher-grade stainless steel (e.g., 304 or 316) is more expensive but offers better corrosion resistance.
- **Tray Type:** Ladder, wire mesh, basket, or trough designs vary in price due to manufacturing complexity ().
- **Dimensions:** Width, depth, and length of the tray affect the price; larger trays or custom sizes cost more.
- **Load Capacity:** Trays designed for heavy-duty industrial use are priced higher.
- **Supplier and Quantity:** Bulk orders or direct purchases from manufacturers may reduce per-meter costs.
