

Price of Fire Protection Cable Tray Laying

Summary of Content

The cost of laying fire protection cable trays typically ranges from \$10 to \$50 per meter, depending on material, fireproofing, and installation complexity.

Material Costs

The price of cable trays varies significantly based on the material used:

- Steel trays: \$5–\$25 per meter; strong and cost-effective for general installations .
- Aluminum trays: \$6–\$30 per meter; lightweight and corrosion-resistant, suitable for harsh environments .
- FRP (Fiber Reinforced Plastic) trays: \$10–\$50 per meter; highly durable and ideal for aggressive environments .
- Stainless steel trays: higher cost but extremely durable and corrosion-resistant, often used in critical industrial settings . Fire-resistant or fireproof cable trays, such as Cablofil systems, are designed to meet stringent fire safety standards like the German DIN 4102-12, which tests trays at high temperatures for 30-90 minutes . These specialized trays are commonly used in power plants, oil and gas facilities, rail, and utilities.

Fire Protection Add-ons

Fire protection for cable trays can include:

- Intumescent pads, pillows, and wraps: Expand in a fire to seal gaps and prevent flame propagation .
