

Price of Home Smart Network Cabinets

Summary of Content

Home smart network cabinets typically range from \$100 to \$1,000+, depending on size, features, and brand.

Typical Price Ranges

- Small wall-mount cabinets (6U-9U): \$100-\$300, suitable for home offices or small smart home setups, often with lockable doors, ventilation, and basic cable management (Amazon listings show VEVOR 6U and 9U cabinets in this range) .
- Mid-range cabinets (12U-18U): \$300-\$600, offering more space for multiple devices, enhanced cable management, and sometimes swing-out or hinged-back designs for easier access (Intellinet Pro Line cabinets fall in this category) .
- High-end or fully assembled cabinets: \$600-\$1,000+, including features like tempered glass doors, climate control, IP-rated protection, and preassembled Plug & Play solutions for complex smart home or small data center setups (CobiNet and custom solutions) .

Factors Affecting Price

- Size (U units): Larger cabinets cost more due to increased material and space for equipment.
- Material and build quality: Steel frames, tempered glass doors, and reinforced panels increase durability and price.
- Features: Lockable doors, ventilation, fans, cable management channels, and climate control add to cost.
