

Price of Low-Noise MPO Connectors for Andorra IDC Data Centers

Summary of Content

Low-noise MPO connectors for data centers typically range from \$30 to \$55 per 10-meter, 12-fiber trunk cable, depending on quality and performance tier.

Pricing Overview

For high-density data center applications, MPO connectors are available in standard and premium tiers:

- Standard MPO connectors (IEC compliant) are suitable for enterprise networks and cost-sensitive projects, priced around \$30 per 10-meter, 12-fiber OM4 trunk cable .
- Premium US Conec MTP® Elite connectors are designed for Tier-1 data centers with super low-loss and high-speed 400G/800G requirements, costing approximately \$55 per 10-meter, 12-fiber OM4 trunk cable . These prices reflect factory direct costs and may vary slightly depending on European distributors and shipping to Andorra.

Connector Features

Low-noise MPO connectors for IDC environments typically include:

- High fiber density: 8, 12, 16, 24, or more fibers per connector, supporting high port density .
- Superior loss performance: Ensures minimal signal degradation for high-speed transceivers like QSFP+ (40G) and QSFP28 (100G), .
- Rugged construction: EMI-shielded adapters and robust housings for reliable operation in dense racks .
