

Price of Outdoor Thickened Distribution Box

Summary of Content

Outdoor thickened distribution boxes typically range from \$30 to \$200 or more, depending on size, material, and IP rating.

Price Range and Factors

The cost of an outdoor distribution box depends on several factors:

- **Material and Durability:** Boxes made from ABS, fiberglass-reinforced polymers, or powder-coated aluminum are more durable and weather-resistant, which increases the price .
- **IP Rating:** Higher ingress protection ratings (IP65, IP66) ensure resistance to dust and water, suitable for harsh outdoor environments, and generally cost more .
- **Size and Circuit Capacity:** Small 12-way DIN rail boxes for residential use may cost around \$30-\$50, while larger commercial or industrial boxes with multiple circuits can exceed \$150-\$200 .
- **Additional Features:** Arc-resistant barriers, flame-retardant materials, and transparent covers for monitoring switches add to the cost .

Example Products

- **IP65 ABS 12-Way Distribution Box:** Suitable for indoor/outdoor use, waterproof, and snow-resistant, priced around \$35-\$50 on Amazon .
- **DIGITUS Outdoor FTTH Distribution Box:** Designed for fiber optic and electrical distribution, available at competitive prices on Reichelt .
