

Price of Repairing a Power Distribution Box

Summary of Content

Repairing or replacing a power distribution box typically costs between \$1,200 and \$6,000 in the U.S., depending on amperage, location, and complexity.

Typical Cost Ranges

- Indoor 100-125A panel: \$1,200-\$2,500 including parts and labor .
- Outdoor 200A upgrade with new meter socket: \$3,000-\$6,000 .
- Average U.S. replacement: Around \$1,350 or more, depending on panel type and materials .
- U.K. replacement: £50-£1,500 including electrician costs, with averages around £450 .

Factors Affecting Costs

- Amperage and Panel Type: Higher amperage panels and specialized breakers (e.g., GFCI or arc fault) increase costs .
- Location: Indoor panels are generally cheaper than outdoor installations; accessibility and distance of wiring also affect labor .
- Labor and Permits: Electrician rates vary by region; U.S. labor costs plus permits can add 5-15% in some areas .
- Complexity of Work: Rewiring, rerouting conduits, or replacing the service drop can significantly increase costs .
