

Price of Waterproof Box Distribution Box

Summary of Content

Waterproof distribution boxes vary in price depending on size, material, IP rating, and configuration, typically ranging from \$20 to \$200 or more per unit.

Key Factors Affecting Price

- Size and Number of Ways
- Small compact boxes (e.g., 4–12 ways) are generally more affordable, suitable for residential or small commercial setups .
- Larger boxes with 20–39 ways or multi-layer configurations for industrial or photovoltaic applications cost more due to increased material and internal space .
- Material
- ABS plastic: Lightweight, cost-effective, and IP65 rated, commonly used for indoor/outdoor applications .
- Polycarbonate (PC): Offers higher mechanical strength and UV resistance, often used in harsh outdoor environments .
- Ingress Protection (IP) Rating
- IP65: Protects against dust and water jets; standard for most outdoor installations .
- IP66–IP68: Higher protection against water immersion, typically more expensive due to enhanced sealing and gaskets .
- DIN Rail and Internal Configuration
- Boxes with pre-installed DIN rails or multiple layers for terminal organization may increase cost .
