

Price of a two-circuit indoor distribution box

Summary of Content

Indoor 2-circuit distribution boxes typically cost between \$15 and \$50, depending on brand, material, and features.

Price Range and Options

For standard indoor 2-circuit distribution boxes, prices generally fall in the \$15–\$50 range. For example, the MOLLUM 2-way circuit breaker distribution box, suitable for indoor use, is available on Amazon and features a transparent cover, durable ABS plastic, and IP65 protection, with prices around \$20–\$35 depending on seller and shipping options (Amazon) . Home Depot also lists 2-circuit breaker boxes, with prices in a similar range, often including free shipping or in-store pickup options .

Factors Affecting Price

- **Material and Durability:** Boxes made from reinforced ABS or PC plastic with corrosion resistance and waterproofing tend to be more expensive.
- **IP Rating:** Indoor-rated boxes are generally less costly than outdoor-rated or weatherproof enclosures.
- **Brand and Certification:** Well-known brands or boxes with compliance to electrical safety standards may carry a premium.
- **Additional Features:** Transparent covers, pre-drilled wiring holes, and compatibility with multiple breaker types can increase cost.
