

Price of fiber optic communication equipment for substations

Overview

Prices for new fiber optics equipment generally range from \$500 to \$10,000, depending on the type, length, and specifications of the equipment. EMI-immune communication links for substations and grid infrastructure: pull-out splice boxes, DIAMOND E-2000 connectivity and modular 19" ODF systems for protection, control and telecontrol networks — engineered in Europe. A substation is one of the harshest electromagnetic environments a. Based in Silicon Valley, California Bay Area, Fosco has delivered expert optical solutions since 2001. We leverage a large inventory for fast shipping and specialize in custom fiber optic cable assemblies with rapid turnaround times. For a quote, email sales@foscoconnect. Reliable communication is key to providing the most efficient means possible. Whether you're expanding your data center, connecting multiple buildings, or future-proofing your connectivity, accurate pricing information helps you budget effectively.
