

Price of hot-dip galvanized cable trays in Vanuatu

Summary of Content

Hot-dip galvanized cable trays in Vanuatu typically range from \$10 to \$60 per meter, depending on type, size, and supplier.

Estimated Pricing

The cost of hot-dip galvanized (HDG) cable trays varies based on material, tray type, and dimensions. Globally, prices per meter range from \$2 to \$25, with HDG ladder trays on the higher end due to durability and corrosion resistance. Specific product listings indicate that standard 2.4–2.5 meter HDG trays can cost between Rs425 and Rs2,695 per unit, depending on size and load capacity. Converted to USD, this roughly aligns with \$10–\$60 per tray, which is a reasonable estimate for Vanuatu considering shipping and import costs.

Factors Affecting Price in Vanuatu

- **Material and Type:** Ladder trays are more expensive than perforated or wire mesh trays due to higher load capacity and structural strength.
- **Surface Finish:** Hot-dip galvanizing provides long-term corrosion resistance, especially important in tropical climates like Vanuatu, and adds to the upfront cost.
- **Local Services:** Vanuatu has professional hot-dip galvanizing services available, which can reduce shipping costs if trays are fabricated locally or galvanized on-site.
- **Shipping and Import:** As most HDG trays are manufactured in Asia (China, Vietnam, India), shipping to Vanuatu can significantly affect the final price.
