

Price of installing electrical distribution boxes in building construction

Summary of Content

The total cost for installing an electrical distribution box in a building typically ranges from \$450 to \$1,800, depending on type, capacity, and complexity.

Cost Breakdown

Purchase Price:

- Standard residential distribution boxes generally cost between \$150 and \$1,500, depending on amperage, number of circuits, and material quality (plastic, steel, or stainless steel) .
- Commercial or industrial boxes with higher capacity, advanced safety features, or smart monitoring systems can cost \$2,000 or more .
- Professional installation for a standard residential setup usually runs \$1,300 to \$1,800, including wiring, breakers, and labor .
- Industrial or complex installations may require weeks of labor and additional permit fees, increasing total costs significantly .
- Retrofitting older buildings can add 15–20% extra due to hidden wiring or structural adjustments .

Factors Affecting Price

- Type of Distribution Box: Residential, commercial, or industrial units differ in size, capacity, and durability .
