

Qiaokou Cable Tray Specifications

Summary of Content

Qiaokou cable trays are available in various types and materials, designed to meet international standards for cable management, including ladder, trough, solid bottom, and channel configurations.

Types of Qiaokou Cable Trays

Qiaokou cable trays are typically offered in the following types to suit different installation needs:

- Ladder Type: Ideal for heavy-duty cables and long spans, providing excellent ventilation and heat dissipation.
- Trough Type: Enclosed sides for moderate protection while allowing easy cable access.
- Solid Bottom Type: Provides full protection for sensitive cables from dust and debris.
- Channel Type: Compact and suitable for smaller cable runs or tight spaces .

Materials and Coatings

Qiaokou cable trays are manufactured using high-quality steel and may include the following specifications:

- Hot-dip galvanized steel conforming to ASTM A123 for corrosion resistance.
- Zinc-coated steel sheets per ASTM A653 for structural quality.
- Cold-rolled or hot-rolled carbon steel meeting ASTM A1008 and A1011 standards for high-strength and formability.
