

Quote for large-span cable trays in Italy

Summary of Content

For large-span cable trays in Italy, suppliers like FEMI-CZ and Spina Group offer customized solutions for industrial and infrastructure projects.

Key Suppliers and Solutions

FEMI-CZ specializes in custom metal cable trays for large installations, including ladder trays, mesh trays, and solid-bottom trays suitable for high-load applications in energy, transport, and oil & gas sectors. Their CZ 1 series is designed for large works, offering lightness, ventilation, and ease of installation, while the FEMI-CZ 0 series provides a wide range of accessories for flexible system layouts. They also distribute GRP (fiberglass reinforced) trays from EBO SYSTEMS for specialized applications. Spina Group (Schiavetti Tekno) provides stainless steel, galvanized, and wire mesh cable trays for industrial and instrumentation systems. Their offerings include perforated, ladder, and closed-bottom trays, with custom sizes and compatibility with Unistrut systems. They emphasize corrosion resistance, thermal expansion compensation, and modular installation, making them suitable for large-span and high-capacity cable routing. Other notable Italian manufacturers include Steel Line CMS, DKC Europe, and Zamet SPA, which provide high-performance cable trays with customization options for industrial and civil installations.

Material and Design Considerations

- **Materials:** Galvanized steel, stainless steel, and FRP for corrosion resistance and durability.
- **Tray Types:** Ladder trays for heavy cables, mesh trays for ventilation, and solid-bottom trays for sensitive installations.
