

Recommended power distribution boxes for East Africa

Summary of Content

For East Africa, robust metal and industrial-grade power distribution boxes with anti-corrosion features and intelligent switching capabilities are recommended.

Key Recommendations

- Merhein EBST2 Metal Distribution Box
- Constructed from 1mm thick high-quality metal with a durable powder coating for rainproof, anti-rust, and ventilation cooling features.
- Designed for residential, commercial, and industrial use in African markets.
- Features include safety locks, versatile wiring holes, and hinged doors for secure and easy maintenance.
- Suitable for environments with high humidity, dust, and physical wear common in East Africa .
- E-abel Industrial Distribution Cabinets
- Customized for African factory conditions, including frequent voltage fluctuations and unstable grids.
- Made from high-quality cold-rolled steel with anti-corrosion surface treatments.
- Supports integration of mains, solar PV, and diesel generators with intelligent interlock systems to ensure uninterrupted power.
- Optimized internal layouts accommodate controllers, interlock devices, and protection components for low-voltage distribution .
