

# Recommended tools for using electrical distribution boxes

## Summary of Content

Essential tools for working with electrical distribution boxes include screwdrivers, pliers, wire strippers, drills, impact drivers, and safety gear to ensure efficient and safe installation or maintenance.

### Hand Tools

- **Screwdrivers:** Both flathead and Phillips screwdrivers are necessary for installing or removing screws on the box and its cover, ensuring secure assembly and access to internal components .
- **Pliers:** Lineman's pliers are used for holding, twisting, and cutting wires, while needle-nose pliers help reach tight spaces inside the box .
- **Wire Strippers:** Essential for removing insulation from wires before connecting them to terminals or breakers .
- **Measuring Tape and Utility Knife:** Used for precise measurements and cutting insulation or cable sheaths .
- **Wrenches:** A 9/16-inch wrench is commonly required for tightening hardware and securing components .

### Power Tools

- **Drills and Impact Drivers:** Facilitate faster installation of the distribution box and mounting hardware .
- **Hole Saws:** Used to create openings for conduit or cable entry .
