

Rwanda nd-802 Relay Protection Tester

Overview

The three-phase microcomputer-based relay protection tester employs a high-speed, high-performance digital control processor as its control unit and utilizes double-precision algorithms in its software to generate highly accurate waveforms of arbitrary phase. Meet all test requirements on site. The instrument has standard four phase voltage and three-phase current output. It can test not only various traditional relays and protection devices, but also various modern microcomputer protections, especially for transformer differential protection and. No new ratings for this product in the past year. Chat with supplier now for more details. Changsha Luosen Automation Technology Co. The company offers high-accuracy testing solutions, including the VLUUKE 0. Find more 1420, 153713 and 1537 products. Enjoy ✓ Free Shipping Worldwide! ✓ Limited Time Sale ✓ Easy Return. 2 degree 3 phase parallel current output (effective value): 0~120A A Long-time Phase current: 10A Maximum output power of Phase current : 450VA Maximum output power of 3 parallel current: 900VA Maximum Permitted work time of 3. otection tester based o d devices. With using matic va ate the tes n port can communicate with 10 de The maximum load v z ha e voltage/ line vo ou.

PRODUCT OVERVIEW RDJB-802Y Microcomputer Relay Protection Tester is our
company extensively listening to user opinions,

LND-802 Microcomputer Relay Protection Tester

It can test not only various traditional relays and protection devices, but also various
modern

Relay Protection Tester

As one of the leading relay protection tester manufacturers and suppliers in China,
we warmly welcome

*UHV-802 Three phase relay protection tester

Today, we would like to introduce UHV-802 Three phase relay protection tester. The device adopts the advanced

ND802 Series Microcomputer Relay Protection Tester

The three-phase microcomputer-based relay protection tester employs a high-speed, high-performance digital control processor as

HT-802 Three Phase Relay Protection Tester

This is three phase relay protection test, has software, can connect to Laptop, the class level is 0.2 and 0.5, kindly

Three-phase Relay Protection Tester VLUUKE LND-802

The company offers high-accuracy testing solutions, including the VLUUKE 0.2-level microcomputer relay protection tester, featuring

LND-802 Microcomputer Relay Protection Tester

1.Meet all test requirements on site.The instrument has standard four phase voltage and three-phase

Protection Relay Tester

Shipping fee and delivery date to be negotiated. Chat with supplier now for more details.

Protection Relay Tester
