

SC optical module installation

Summary of Content

Installing an SC optical module requires careful handling, proper orientation, and adherence to safety procedures to ensure secure connections and prevent damage.

Safety Precautions

- Avoid direct eye exposure to the optical module or fiber ends, as they emit laser radiation that can cause eye damage .
- Wear an ESD wrist strap or gloves to prevent electrostatic discharge that could damage the module .
- Keep dust plugs on idle ports and on the module until ready to connect .
- Handle the module by its sides or metal cage, avoiding contact with the edge connector .

Tools and Materials Needed

- SC fiber optic connectors
- Fiber strippers, cleaver, and holders
- Anhydrous alcohol and lint-free wipes for cleaning
- Crimping pliers and UV glue (if using epoxy-based connectors)
- UV lamp (for curing epoxy if applicable)

Step-by-Step Installation of SC Optical Module
