

SFP optical module supply cost

Summary of Content

SFP optical module prices vary widely, from as low as \$5 for basic compatible 1G modules to several hundred dollars for OEM or high-performance modules.

Typical Price Ranges

- 1G SFP Modules: Compatible or generic modules typically cost \$5-\$25, while OEM-branded modules (Cisco, HPE, Juniper) can range from \$60-\$120+ depending on specifications and industrial-grade features .
- 10G SFP+ Modules: Compatible 10G SR modules are usually \$20-\$60, whereas branded LR/ER or vendor-certified modules can cost \$100-\$300+ .
- 25G SFP28 Modules: Low-cost compatible modules can be under \$30 for volume purchases, while OEM single-mode or specialized modules may reach \$200-\$900 .
- 40G QSFP+ Modules: Compatible SR4 modules are priced \$40-\$150, with high-end LR4 or WDM modules costing \$300-\$1,000+ .
- 100G QSFP28 Modules: Entry-level short-reach compatible modules are relatively affordable, but carrier-grade DWDM or coherent long-haul modules are significantly more expensive .

Factors Affecting Cost

- Vendor Type: OEM modules are more expensive due to warranty, compatibility assurance, and brand premium, while third-party compatible modules offer cost savings but may require careful verification of electrical and optical compatibility .
