

Sierra Leone Outdoor Explosion-proof Distribution Box Manufacturer

Summary of Content

International suppliers like Supermec, Atex Delvalle, Bartec, Warom, and Hexlonex provide ATEX and IECEx certified outdoor explosion-proof distribution boxes suitable for hazardous environments in Sierra Leone.

Key Suppliers and Products

Supermec offers ATEX-certified explosion-proof and flameproof enclosures, including the EJB A and S series, designed for chemical plants, offshore platforms, and refineries. Their enclosures are built to withstand highly corrosive environments and provide long-term durability for power distribution and monitoring applications. Atex Delvalle manufactures custom-made local control stations and distribution boxes in stainless steel (AISI 304L and 316L) or GRP. Their products are certified for Zone 1, 2, 21, and 22 hazardous areas, capable of operating in extreme outdoor temperatures, and allow flexible internal configurations for control devices, switches, and indicators. Bartec provides a wide range of explosion-proof enclosures, including Ex d (flameproof), Ex e (increased safety), and Ex i (intrinsically safe) solutions. Their systems support low- and medium-voltage power distribution, motor control, and signaling devices, with modular designs suitable for harsh outdoor conditions and long service life. Warom specializes in explosion-proof electrical equipment, including distribution boxes, control equipment, and motor switches. Their products comply with IEC, ATEX, and IECEx standards and are widely used in petroleum, chemical, marine, and mining industries. Hexlonex offers durable explosion-proof distribution boxes and electrical enclosures certified for Zone 1 and Zone 2, suitable for outdoor installations in hazardous areas.
