

Simplified pricing for household electrical distribution boxes

Summary of Content

A basic home electrical distribution box typically costs between \$25 and \$200, with total installed costs ranging from \$75 to \$300 depending on size, material, and labor.

Cost Overview

For standard residential applications, simplified distribution boxes or consumer units are generally priced as follows:

- Plastic single-gang boxes: \$6–\$25 for the box itself, suitable for one device or circuit .
- Metal or weatherproof boxes: \$50–\$200, offering enhanced durability, outdoor protection, or higher amperage capacity .
- Total installed cost: Including labor, permits, and wiring, expect \$75–\$300 for a basic replacement or installation .

Factors Affecting Price

- Material: Plastic boxes are cheaper, while metal or weatherproof enclosures cost more due to durability and safety features .
- Amperage and circuits: Higher capacity boxes with multiple circuits or integrated breakers increase the price .
- Installation complexity: Labor costs rise if wiring upgrades, conduit installation, or difficult access is required .
