

South Sudan power distribution box specifications and dimensions

Summary of Content

The standard 12-way power distribution box in South Sudan measures 300mm x 230mm x 290mm with an IP67 rating.

Key Specifications

- Dimensions: 300mm (height) x 230mm (width) x 290mm (depth) for the 12-way enclosure, suitable for industrial and outdoor applications .
- Connection Ways: 12 ways for electrical connections, allowing multiple circuits or devices to be accommodated .
- Protection Rating: IP67, providing full protection against dust and temporary immersion in water, making it suitable for harsh environmental conditions .
- Voltage Compatibility: Designed for a wide voltage range of 220V to 415V, compatible with various electrical systems .
- Construction: Made from durable, corrosion-resistant materials to withstand impact and outdoor exposure .

Additional Considerations

- Installation: Should be performed by a qualified electrician following local electrical codes to maintain the IP67 rating and ensure safety .
- Outdoor Use: Some distribution boxes in South Sudan are fabricated from 2mm galvanized steel with reinforced structures, slanted roofs, and secure locking systems for outdoor deployment .
