

Special Light Cable Manufacturing Plant

Summary of Content

Special light cable manufacturing plants produce high-performance optical and fiber optic cables for data centers, telecommunications, and industrial applications, often with ultra-high fiber counts and custom specifications.

Furukawa Electric and Lightera – Mie, Japan

In February 2026, Furukawa Electric and Lightera opened a new optical cable manufacturing plant in Mie, Japan, designed for ultra-high-fiber-count optical cables with up to 13,824 fibers per cable . The facility targets hyperscale data centers, AI-driven infrastructure, and next-generation networks, providing scalable production, operational efficiency, and reliable supply for global telecommunications and enterprise markets. The plant emphasizes advanced fiber technology and consistent manufacturing quality to meet rapidly growing global demand .

EFB Elektronik – Germany and Slovakia

EFB Elektronik specializes in custom fiber optic and copper assemblies for industrial, mechanical, and IT applications . Their facilities in Sonneberg, Germany, and Slovakia focus on precision manual assembly, splice boxes, cabinet systems, and complete cable groups. The plant emphasizes technical expertise, high-quality standards, and ergonomic workstations, ensuring both speed and accuracy in producing specialized cables tailored to customer specifications .

Leigh Cables – United Kingdom
