

Standard Price for Home Electrical Distribution Box Placement

Summary of Content

A home electrical distribution box should be installed in a dry, accessible location such as a basement, garage, utility room, or outdoors near the meter, with typical costs ranging from \$1,200 to \$6,000 depending on amperage and installation complexity.

Recommended Placement

- **Indoor Locations:** Basements, garages, or utility rooms are ideal because they are dry, ventilated, and easily accessible for maintenance and emergency access .
- **Outdoor Locations:** If installed outside, the box should be weatherproof with a proper IP/NEMA rating to protect against water and dust .
- **Height and Accessibility:** Typically mounted at about 1.5 meters (5 feet) from the floor for easy access .
- **Safety Considerations:** Avoid damp areas, direct sunlight, or locations prone to flooding. Ensure proper ventilation and clearance around the box for safe operation and future upgrades .

Cost Overview

- **Standard Residential Panels:** A 100-125A indoor panel typically costs \$1,200-\$2,500 including parts and labor .
- **Higher Capacity or Outdoor Panels:** A 200A outdoor upgrade with a new meter socket can range from \$3,000-\$6,000 .
