

Steel cable trays for data centers IP65

Overview

Steel wire mesh cable trays provide a practical solution for organizing and supporting cable runs in demanding IT infrastructure environments. Since 1968, we have produced metal fabricated products for mission-critical applications using U. steel and precision manufacturing technology. For facilities that. Snake Tray manufactures steel cable tray for high capacity applications in data centers, telecommunication rooms and any highly cabled facilities. Madsen Steel Wire Products manufactures wire and ladder-style cable tray systems engineered to meet the performance. From galvanized steel cable trays to heavy-duty stainless steel options, they offer solutions tailored to the specific needs of power distribution and data center applications.
