

# Technique for making cable tray bends

## Overview

This guide explains how to make 90° bends, vertical bends, tees, and offsets in wire mesh cable trays safely and professionally. Vertical Bend (Up / Down Bend) □□ Use case: Going. Students trading aid on how best to put an internal 90 degrees bend in steel cable tray. You can buy a manufactured 90 degree bend or make one on a cable tray bending machine but in this video I show you how to Students. Wire mesh cable trays are widely used because of their flexibility and easy on-site modification. Unlike perforated trays, bends can be created directly at site without expensive fittings. This step-by-step fabrication process shows how cable trays are shaped perfectly to fit electrical installations in industrial and commercial projects. Horizontal 90° Bend (Flat Bend) 2.
