

Thick Optical Cable Manufacturer

Summary of Content

Leading manufacturers of thick or high-capacity optical cables include Tratos Group, ZTT International, OMC Cable, and Optral, offering customized solutions for industrial, telecom, and broadband applications.

Key Manufacturers

Tratos Group – A major European fiber optic cable manufacturer, Tratos produces a wide range of optical cables, including fire-resistant, low smoke zero halogen (LSZH), and submarine cables. Their cables are suitable for indoor, outdoor, and direct burial installations, with options for high fiber counts and hybrid constructions combining optical fibers and copper cores for power supply . **ZTT International** – ZTT specializes in outdoor optical fiber cables with robust constructions, including loose tube, tight buffer, and armored designs. They offer cables with high fiber counts (up to 216 fibers), rodent protection, flame retardancy, and extreme climate resistance, making them ideal for thick, heavy-duty applications . **OMC Cable** – OMC provides custom fiber optic solutions with flexible core and cladding diameters, various jacket materials (PVC, LSZH, armored), and pre-terminated connector options. They can manufacture cables to exact lengths and specifications, supporting high-bandwidth and ruggedized applications . **Optral (CEF)** – Optral offers a broad range of fiber optic cables for indoor and outdoor use, including FTTH and industrial-grade solutions. Their products are designed for high-performance and durability, suitable for thick cable requirements in both commercial and specialized applications . **Other Notable European Suppliers** – Companies like PENGK KABEL GmbH (Austria) and INTEGRA CABLE (Belarus) provide customizable fiber optic cables for telecommunications, railway, and broadband infrastructure, including direct burial and aerial installations .
