

# Third Wave of Fiber Optic Cable Bidding

## Summary of Content

The third wave of fiber optic cable bidding represents the latest global procurement opportunities for fiber optic infrastructure, spanning government, public sector, and private projects worldwide.

### Overview of the Third Wave

The current phase of fiber optic cable bidding involves a surge in tenders and RFPs for the deployment, expansion, and upgrading of fiber optic networks. This wave is driven by increasing demand for high-speed internet, 5G infrastructure, and digital connectivity projects across multiple regions, including Africa, Asia, Europe, the Americas, and the Middle East . Governments, international agencies, and private companies are actively issuing contracts for both supply and installation of fiber optic cables.

### Key Features

- **Global Coverage:** Opportunities are available in over 240 countries, covering urban and rural network expansions .
- **Diverse Procurement Types:** Tenders include supply of fiber optic cables, network installation, splicing, cabling, and related equipment .
- **Funding Sources:** Projects are funded by government departments, multilateral agencies like the World Bank and UN, infrastructure authorities, and private sector investors .
- **Tender Platforms:** Major platforms aggregating these opportunities include Bid Detail, GlobalTenders, Find RFP, Tender Impulse, and TendersInfo, offering real-time updates, document access, and bid consultancy services .
