

Vietnam Fiber Optic Enterprise Router LPO

Summary of Content

Vietnam's fiber optic infrastructure is rapidly expanding, with major providers offering high-speed routers and local point-of-presence (LPO) solutions to support FTTH, data centers, and enterprise connectivity.

Market Overview

Vietnam's fiber optics market is valued at approximately USD 1.2 billion and is growing due to rising demand for high-speed internet, government digital transformation initiatives, and telecom infrastructure expansion, particularly in major cities like Hanoi and Ho Chi Minh City . By mid-2024, 82.2% of fixed broadband households were connected via fiber-optic FTTH, with universal fiber access targeted by 2025 under the Digital Infrastructure Strategy . The market is dominated by Viettel, VNPT, and FPT, which together account for roughly 95% of fixed broadband subscriptions .

Key Providers and Manufacturers

Several companies in Vietnam provide fiber optic routers, LPO solutions, and related connectivity equipment:

- FPT Telecom International: Offers private internet connections, data transmission channels, and flexible IT infrastructure for businesses .
- CMC Telecom: Specializes in customized telecom solutions with international connectivity up to 10Gbps .
