

# What are some suppliers of optical power meters

## Summary of Content

Some leading manufacturers of optical power meters include L-com, Novanta Photonics, Agiltron, Shineway Tech, Hopu Optical, and Senter Electronic.

Optical power meters are produced by a variety of companies worldwide, ranging from specialized photonics firms to broader electronics manufacturers. Top-ranked manufacturers as of 2026 include L-com, Novanta Photonics, and Agiltron . Other notable companies offering optical power meters are Shineway Tech, Hopu Optical, and Senter Electronic . Additional manufacturers and suppliers can be found through directories such as GoPhotonics, which lists over 40 companies, and RP Photonics, which catalogs 68 suppliers including distributors and manufacturers . Some companies, like CNI, specialize in thermopile and photoelectric laser power meters, while Kentek distributes Gentec EO meters in North America . These manufacturers provide devices capable of measuring optical power across a wide range of wavelengths and power levels, suitable for applications in fiber-optic communications, laser research, and industrial photonics. Many offer calibration services and sensors optimized for specific wavelengths to ensure accurate measurements . For professional purchases, platforms like DirectIndustry allow users to compare products from multiple brands, including technical specifications and product images, helping to select the most suitable optical power meter for specific applications .
