

What is the price of a primary distribution box

Summary of Content

The standard price of a primary distribution box typically ranges from \$10 to \$100 for residential units, while industrial or high-capacity boxes can cost \$200 to over \$2,000 depending on specifications.

Residential Distribution Boxes

For home use, basic single-phase distribution boxes are generally priced between \$10 and \$100, depending on the material (plastic, metal) and the number of circuits included . Simple plastic boxes are the most affordable, while metal enclosures offer better durability and protection, costing slightly more . Some suppliers in India offer residential boxes starting from ₹150 to ₹280 per piece for standard models .

Industrial and Commercial Distribution Boxes

Industrial-grade or commercial distribution boxes are designed for higher voltages, multiple circuits, and enhanced safety features, which increases the cost. Prices for these units can range from \$200 to over \$2,000, with additional costs for installation, permits, and professional labor . Smart distribution boxes with monitoring and remote control capabilities are at the higher end of this range but provide long-term energy management benefits .

Factors Affecting Price

Several factors influence the cost of a distribution box:

- Material: Plastic, steel, aluminum, or concrete; metal and concrete are more expensive .
