

Where to buy optical couplers

Summary of Content

You can purchase high-quality optical couplers from specialized electronics distributors or fiber optics suppliers, depending on whether you need electronic optocouplers or fiber optic couplers.

For Electronic Optocouplers (Photocouplers)

If you need optoelectronic couplers for circuit isolation or signal transfer, Mouser Electronics offers a wide selection from leading manufacturers such as Broadcom, onsemi, Renesas, Toshiba, and Vishay. They provide datasheets, pricing, and parametric filtering to help you select the right optocoupler for your application, including considerations for voltage, current, and switching speed (<https://>) .

For Fiber Optic Couplers

If your application involves fiber optic networks, several suppliers provide high-quality couplers:

- EFB-Elektronik offers a comprehensive range of fiber optic couplers including LC, SC, MTP, singlemode, multimode, and E2000 types. They provide low-attenuation, high-quality components suitable for industrial and communication applications, with options for custom designs and expert support (<https://>) .
- RS Components stocks fiber optic couplers from brands like Panduit, Phoenix Contact, L-com, and RS PRO. Their couplers are designed for precise light signal splitting or combining in optical networks, and technical guidance is available for selecting the correct coupling ratio or wavelength compatibility (<https://us.rs-online.com/electronic-components/optoelectronics/fiber-optic-products/fiber-optic-couplers/?m=1>) .
