

Which Norwegian optical cable manufacturers are there

Summary of Content

Key Norwegian companies in the fiber optic sector include Max. Fiberworks, Smartoptics, T&G Elektro, Norsk Fiberoptikk, Foss Fiber Optics, and Nexans Norway.

Notable Companies

Max. Fiberworks specializes in a wide range of fiber optic cables and solutions, offering development, delivery, and testing services for fiber networks, making it a key player in Norway's optical cable market . Smartoptics provides innovative optical networking solutions, including optical transceivers and scalable, flexible systems suitable for telecom and data networks . T&G Elektro focuses on custom connection solutions and manufactures fiber optic cables for sectors such as defense, aerospace, telecom, and energy, highlighting their versatility in specialized applications . Norsk Fiberoptikk has been operating since 2001 and offers comprehensive fiber optic solutions and infrastructure services, serving both small and large-scale projects across Norway . Foss Fiber Optics is a long-established company (since 1984) providing fiber optic infrastructure for transport networks, data centers, industrial buildings, defense, and offshore applications. They manufacture standard and custom cables, connectors, and Plug & Play solutions tailored to demanding environments . Nexans Norway is a leading supplier of power, telecom, and installation cables, including offshore control and high-voltage submarine cables. With multiple factories in Norway, they provide local support and expertise for fiber optic and hybrid cable solutions . These companies collectively cover a broad spectrum of fiber optic needs, from standard telecommunications cabling to specialized industrial and defense applications, reflecting Norway's strong presence in the optical cable industry.
