

Which Swedish fusion splice pigtail manufacturers are there

Summary of Content

Currently, there are no widely recognized Swedish manufacturers dedicated solely to fusion splice pigtails; most suppliers in Europe are international companies with distribution in Sweden.

Overview

Fusion splice pigtails are fiber optic components used to permanently join optical fibers with minimal signal loss. They are typically produced by specialized manufacturers in Asia, the US, and Europe, including companies like Zhejiang TriBrer, Fujikura, OFS, and Corning . These companies supply high-quality pigtails compatible with various fusion splicers and fiber types.

Swedish Market Context

While Sweden has a strong telecommunications and fiber optic industry, there are no prominent Swedish-based manufacturers exclusively producing fusion splice pigtails. Instead, Swedish network operators and contractors usually source these components from international suppliers with European distribution centers. Companies like Fujikura Europe Ltd and OFS provide products and technical support to Swedish customers .

Alternatives for Swedish Buyers

- International manufacturers with European distribution: Fujikura, OFS, Corning, and TriBrer offer fusion splice pigtails and related accessories, often with local support in Sweden .
