

Wholesale Price of Gigabit Optical Modules

Summary of Content

Bulk gigabit optical modules can be purchased from factories at prices starting around 6.8 RMB per unit, depending on specifications and order volume.

Pricing Overview

Wholesale gigabit optical modules, particularly single-mode dual-fiber types, are available at factory prices starting from approximately 6.8 RMB per unit when purchased in bulk from verified manufacturers on platforms like 1688, representing a significant discount compared to standard market prices above 15 RMB per unit . Prices vary based on wavelength, interface type, transmission distance, and compatibility with brands such as Huawei, H3C, and Cisco .

Factors Affecting Price

- **Transmission Distance and Type:** Modules supporting distances from 300 meters to 80 kilometers may have different pricing tiers .
- **Customization:** Factories often offer customizable wavelengths, interface types, and industrial-grade durability, which can influence cost .
- **Order Volume:** Bulk purchases reduce per-unit cost, while small-batch or single-unit orders may be slightly higher but still competitive .
- **Supplier Location and Direct Sourcing:** Direct factory sourcing from China, India, or Korea bypasses intermediaries, lowering costs .
